

STUDY GUIDELINES: CH. 1 - CALIFORNIA'S GEOGRAPHY

**Just as a map is used to guide you to a destination,
use these sentences to guide you in your study of this chapter.**

1. Know all vocabulary words (All Lessons).
2. Describe where California is located in relation to the rest of the world (Lesson 1).
3. Identify what is important about California's location in terms of relationships with other areas and people (Lesson 1).
4. Name California's four regions and recall some of the major physical features of each (Lesson 2).
5. Describe California's climate for each of the four regions and identify some of the reasons for differences (Lesson 3).
6. Explain how climate affects the lives of the people who live in California (Lesson 3).
7. Discuss conditions that affect where people choose to live in California (Lesson 4).
8. Summarize how landforms, climate, and natural resources affect different ways of life in each California region (Lesson 5).
9. Continue to work on identifying main ideas and details in a piece of writing (All Lessons).
